Date:

Reduction of 801 Bus Services to/from Northleach

Dear Councillor Hodgkinson,

I am writing to express my concern regarding the cancellation of the 801 Bus Service from Northleach on the early morning and evening timeslots.

This cancellation has caused significant disruption to my life as it has meant that I am no longer able to get to work/college as I do not have any other form of transport. My particular personal impact is:

Write down your personal situation

Transport when living in a rural area is difficult at the best of times but we get used to it but to allow the cancellation of a bus service that provides an economic and education/training lifeline to many people of Northleach and surrounding areas is disastrous. We are being encouraged as a society to reduce our reliance on private cars and the reduction of such a critical bus service goes against all of this.

I would ask that you raise this issue at the highest level within Gloucestershire County Council and implore them to find a short term and a long-term solution to this obvious gap in local transport provision.

I look forward to hearing about your progress in this matter.

Yours sincerely,
